

MULTI-PURPOSE SHREDDER – DUAL BLADE- 100-200 kgs/hour

Technical Specification of Dual Blade Shredder		
Sl.No	Parameter	Specification
1	Type of Equipment	Two Stage Shredder
2	Working Capacity	100kg per hour to 200kg per hour
3	Main Motor Power	2KW
4	Number of Cutter	20, The blades profiles have been duly carburized and hardened
5	Body Cover	CS Duly Carburized & Hardened
6	Feed Cross Section	130mm X 300mm and depth of 100mm
7	No of shafts holding cutter	2no's
8	Speed of the rotating shaft	100 & 70 RPM (Facilitates self cleaning)
9	Control panel with safety switches	Availbale
10	Mobility Arrangment	Available
11	Exterior Body	Stainless Steel - 304, thickness 1.6mm

Warranty- 1 year from installation

MULTI-PURPOSE SHREDDER – DUAL BLADE- 500-1000 kgs/hour

 	Shred chamber(mm)	410x410
	Shred size (mm)	12 x 50-100
	Shred Capacity (kg/Hr.)	1/2-1 tonne per hour
	Voltage	415 V
	Power	7.5HP
	Hopper volume (Litres)	120 L
	Waste Volume(Litres)	335 L
	Weight (kgs)	400kgs
	Machine Dimensions (mm) HxWxD	2060x800x1000
	Overload Protection	yes
	OverHeat Protection	yes
	Auto Reverse	yes
	Motor Start/Off	online starter
	Working cycle If operated in ventilated ambience and at 60% rated capacity	CONTINUOUS

Motor Start/Off online starter Working cycle If operated in ventilated ambience and at 60% rated capacity CONTINUOUS Technology Multipurpose garden waste shredder full coconut, coconut leaves, twigs, branches upto 60mm dia, sugarcane waste pet bottle etc

Warranty- 1 year from installation
